

MADE AT ALTITUDE · TRENTINO · ITALY

Authentic Italian Alpine Asiago

Milk from within 90 km of our dairy in Grigno — made, aged & packed in our own mountain plants. Casa Finco, casari dal 1925.

Where cows graze in the Dolomites' shades, the milk is different — and so is the cheese.
One heritage cheese, three expressions, from supple and milky to deep and crystalline.

The Asiago ladder

Asiago Fresco DOP 30-40 DAYS

Mild, milky and supple — the approachable gateway wheel, an easy everyday seller.

Asiago Stagionato DOP 5 MONTHS

Fuller and firmer, nutty with a clean finish — the versatile everyday favorite.

Asiago Vecchio DOP 9 MONTHS

Deep, savory and crystalline — the connoisseur's wheel, a story told tableside.

Each available as a **whole wheel** or **vacuum-packed 1/4 wheel**. Landed & in stock in the U.S.

ALPINE ALTITUDE MILK

A certified dairy at 800 m. The mountain origin is the product — not a tagline.

100 YEARS OF CRAFT

Milk processing, cheesemaking, aging & packaging — all in our own plants. Nothing outsourced.

SUSTAINABLE BY DESIGN

~650,000 kWh/yr of in-house solar; ~1,000 tons of CO₂ avoided yearly — the alpine landscape protected.

Already landed and **in stock in the U.S.** via Seafrigo cold chain — ready to ship
FedEx / UPS to your door.
